

# Sugar Mill Parts and Components

**Longitudinal Shaft Drilling**  
High Drainage Roll (Lotus)

**Radial Drilling with or without Shaft**  
High Drainage Roll (Lotus)

**Welded Coating**

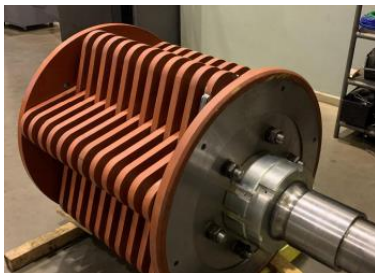

**Complete Mounting**

**Knives**

**Shredder**

**Hydraulic Equalizer**

- Its operating concept eliminates the need for pumps, motors, and valves. It is based on a process of equal volumetric displacement, which generates an automatic mill head pressure adjustment, always keeping them with the same displacement.
