

Filter Vessels, Bags and Cartridge End Caps

Prodek
Serving the Industry

Filter Vessels

Offered in both code and non-code designs, Global Filter's vessels meet the process requirements for numerous applications and industries. Robust construction, available in carbon, 304, & 316 stainless steel for a wide range of flow capacities.

- Cartridge Vessels
 - GFHD-Series Single-Cartridge Liquid Filter Vessels
 - GTCHB-Series Multi-Cartridge Band Clamp Liquid Filter Vessels
 - GTCH Series Cartridge Vessels
- Bag Vessels
 - GBFE4-Series Single Bag Liquid Filter Vessels
 - GBFV8-Series Stainless Steel & Carbon Steel Single Bag Liquid Vessels
 - GBFV82-Series Twin Capacity Bag Liquid Filter Vessels
 - GMBV-Series Multi-Bag Liquid Vessels
 - GMBE-Series Stainless & Carbon Steel Multi-Bag Liquid Vessels

Liquid Filter Bags

Adaptable to a very wide range of applications, liquid bag filters are available in both nominal and absolute efficiencies in micron ratings from 1 to 1500.

- Standard Mesh Liquid Filter Bags
- Standard Felt Liquid Filter Bags
- Microfiber Liquid Filter Bags

Cartridge End Cap Configurations
